

By the numbers

A global company with a strong US footprint

Our US presence extends from coast to coast. Novartis campuses are designed to foster a world-class work environment and promote a culture of collaboration and innovation to help continually meet the evolving needs of our patients, customers and the communities we serve.

Total Jobs Created

Novartis created jobs directly, as well as indirectly, as a buyer of goods and services from suppliers. Our business activities create jobs across the entire supply chain.

*Indirect from vendors and suppliers. This also includes purchases from vendors across the entire supply chain.

**Induced from additional consumption-related spending along the entire supply chain.

Reimagining medicine through science and innovation

Novartis is reimagining medicine to improve and extend people's lives. As a leading global medicines company, we use innovative science and digital technologies to create transformative treatments in areas of great medical need. In our quest to find new medicines, we consistently rank among the world's top

companies investing in research and development. About 110 000 people of more than 140 nationalities work at Novartis around the world. In the US, Novartis has nearly 16 000 full-time equivalent employees in skilled positions, including more than 5,500 scientist, physicians and other R&D professionals.
